DETAILED ACTION

Allowable Subject Matter

1. Claims 1-24 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

Upon further consideration and comparison with prior art of record (closest references Lee – US 6,678,334 and Balkanski et al. – US 5,253,078), the examiner agrees with the applicants in the REMARKS of the amended filed on 01/31/05. Particularly, prior art of record, taken alone or in combination fails to fairly teach “a communication node that performs a Huffman decoding operation to generate channel symbols that are characterized approximately by a sampled Gaussian distribution, the communication node transmitting the channel symbols at a constant rate” in independent claim 20 and similarly in independent claims 1, 16 (claims 2-15, 17-19, 21-24 depend therefrom). Thus, the amended claims 1–24 are found to be novel and unobvious over prior art of record.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dac V. Ha whose telephone number is 571-272-3040. The examiner can normally be reached on 5/4.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen Chin can be reached on 571-272-3056. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
